Frequently asked questions about the University of Wyoming Department of Atmospheric Science on line application procedure.

Q: I have completed the online new account creation but have not yet received any username and password.

A: You will not receive a username and password until the application fee is paid. The fee can not be waived.

Q: How can I know my recommendation letters have been received?

A: The applicant will receive an e-mail for each recommender who submits a recommendation. If such emails are not received, please check with your recommender and/or with the Department of Atmospheric Science's graduate student coordinator.

Q: For the transcripts and test score sections, are unofficial copies all that are required at the time of application?

A: Yes.

Q: How are unofficial transcripts and test scores submitted?

A: Scan the documents and submit them as pdf files for the on line application, using the Upload Document button. Please name the files appropriately, e.g. Applicant_College_begin-end.pdf, or Applicant_GRE/TOEFL_Year.pdf. Other naming conventions also work. To see the documents submitted use the Upload Document link. The review document button on the document of concern will show what has been submitted. If the document is incorrect it can be deleted and replaced.

Q: When are official materials required?

A: These should be requested at the time an applicant receives an offer. All offers will be contingent on receiving the official test scores from the testing services and official transcripts from the colleges/universities.

Q: How can I know my official transcripts, GRE and TOEFL scores have been received?

A: Inquire at the respective universities or testing places, or check with the Department of Atmospheric Science's graduate student coordinator.

Q: Where is the Graduate Assistant Application Form?

A: Copy the following link to your browser. Download the form, complete it, save it, and upload it to your student application.

http://www-das.uwyo.edu/~deshler/GRAs_General/Graduate_Assistant_Form.pdf,

Q: What if my references must print and mail their reference?

A: Use this link,

http://www-das.uwyo.edu/~deshler/GRAs_General/Letters_of_Ref_form.pdf,

for the form of the letter, and have the reference sign over the envelope seal and mail to:

Ms Susan Allen

College of Engineering and Applied Science

Dept. 3038

1000 E. University Avenue

Laramie, WY 82071

USA

Q: How can I track the status of my application?

A: If under the application checklist there are green check marks for parts 1-5 and 7, and you have filled in your GRE scores, English proficiency scores, previous university education, with GPA and transcripts, and all of your letters of reference have been received, then your application is complete. There will be no further change in the status of your application until the department of Atmospheric Science decides to make you an offer or decline your application.

Q: When should I expect to receive a response to my application?

A: All applications are evaluated in January by the Atmospheric Science faculty. Selected applicants will receive offers in late January or early February. Competitive applicants, not receiving offers in the first round, will be placed in a stand by pool for possible offers, if some of the initial offers are declined.

Q: If I am admitted will I receive financial support?

A: All students accepted will receive a salary as a graduate research assistant, and their tuition and fees will be paid.

Q: How many applicants usually apply, and how many are admitted?

A: The number of applications varies between 20 and 40. The number admitted varies from 5-8, depending on funding level.
